

Communicate
effectively in over
120 languages

Leverage our resource base of professionals who understand industry terminology, policies and procedures.

Indispensable

Accurate, quality translations delivered on time and on budget

Benefit from our resource base of professional translators with manufacturing-domain experience

Over the past forty years we have built a resource base of highly qualified professionals. We keep track of the high performers and use the best and brightest translators available. Why not leverage our resources?

Quick turnaround

Our translation coordinators have everything they need to complete your order as quickly as possible:

- Advanced IT order management systems
- Efficient client communication processes
- Project management support for large or complex orders

Quality you can trust

We choose experienced translators whose work is checked by a second linguist. Plus, we follow industry certified standards processes and our own best practices.

A reputable partner to manufacturing firms

"Thank you very much for working so hard to get a large number of translations completed within a short time. It is much appreciated."

– Regulatory affairs associate at a large pharmaceutical company.

- Data sheets
- General correspondence
- Human resource documents
- Internal communications
- Labour documents
- Operating instructions
- Patents and legal documents
- Product information
- Technical information
- User manuals
- Websites
- And many more...

*Copy editing services are also available.

The key to quality

Quality information coming in is the best way to get quality results going out. That's why it's important to collaborate with us early in the order process.

Certified to the world's highest standards

ISO 17100:2015

ISO 17100:2015 provides a framework for the necessary components of quality translations – as recognized internationally. The standard covers all aspects of translation, including processes, resource selection, and the capability to deliver translation services. Compliance is ensured by recognized certification bodies through on-site audits.

Canadian General Standards Board CAN/CGSB-131.10-2008

Developed under the auspices of the Canadian General Standards Board and approved by the Standards Council of Canada, this certification establishes and defines the process requirements for the provision and translation services. It harmonizes, where possible, with the provisions of EN-15038 and was highly advocated for by l'Association de l'industrie de la langue/Language Industry Association (AILIA).

Manuals

Manuals are accurately translated in over 120 languages.

Technical Information

Technical information is translated by professional linguists who have the most suitable credentials.

Contracts

We are experts at handling legal contracts. Over the past forty years, we have worked for thousands of lawyers and have the qualified resources you need.

Undeniable

Mastering the use of language services is mandatory in today's world

Manufacturing often involves multilingual translation

A major portion of the Canadian economy relies on international trade and business. Whether your business is primarily English or French – or your operations and customers are around the globe – we can help you effectively communicate across language barriers.

Available on-site to enable multilingual interpretation during meetings, conventions or training sessions

Canada is not only officially bilingual, but also one of the most multicultural societies in the world. Our interpreters are always on hand – in whichever language pair(s) you need – to facilitate communication between your staff and foreign guest(s).

One-stop language services provider simplifies your life

We're more than a translation services provider; we're your one-stop shop for your language services requirements – translation, interpreting, copy editing, desktop publishing, and more. Why not leverage our resources and experience the next time a need arises?
