

Translators & Interpreters

Translation services for mining
and exploration companies.

High grade
translations in
120 languages.

Quality and
service that
hits the mark.

Indispensable

Accurate, quality translations delivered on time and on budget

Benefit from our resource base of professional translators with mining-domain experience.

Over the past forty years we have built a resource base of highly qualified professionals. We keep track of the high performers and use the best and brightest translators available. Why not leverage our resources?

Quick turnaround.

Our translation coordinators have everything they need to complete your order as quickly as possible:

- Advanced IT order management systems
- Efficient client communication processes
- Internet-based portal so you can place orders directly into our system.

Quality you can trust.

We choose experienced translators whose work is checked by a second linguist. Plus, we follow industry certified standards processes and our own best practices.

Project management of large or complex orders

We'll assign a dedicated team to create a work-back schedule, monitor production flow and keep you abreast of progress and activities. We'll sweat the details and keep things running smoothly.

Translations you can trust

You want your translations to accurately communicate the facts and to contain the correct terminology and nuances. We consistently deliver the results you need in more than 120 languages.

Types of mining materials we translate:

- Business forms
- Certifications and certificates
- Contracts
- Corporate communications
- Data sheets
- General correspondence
- Human resource documents
- Internal communications
- Labour documents
- Operating instructions
- Patents and legal documents
- Product information
- Technical information
- User manuals
- Websites
- And many more...

The key to quality

Quality information coming in is the best way to get quality results going out. That's why it's important to collaborate with us early in the order process.

Certified to the world's highest standards

ISO 17100:2015

ISO 17100:2015 provides a framework for the necessary components of quality translations – as recognized internationally. The standard covers all aspects of translation, including processes, resource selection, and the capability to deliver translation services. Compliance is ensured by recognized certification bodies through on-site audits.

Canadian General Standards Board CAN/CGSB-131.10-2008

Developed under the auspices of the Canadian General Standards Board and approved by the Standards Council of Canada, this certification establishes and defines the process requirements for the provision and translation services. It harmonizes, where possible, with the provisions of EN-15038 and was highly advocated for by l'Association de l'industrie de la langue/Language Industry Association (AILIA).

Manuals

Manuals are accurately translated in over 120 languages.

Technical Information

Technical information is translated by professional linguists who have the most suitable credentials.

Contracts

We are experts at handling legal contracts. Over the past forty years, we have worked for thousands of lawyers and have the qualified resources you need.

Undeniable

Mastering the use of language services is mandatory in today's world

Mining often involves multilingual translation

Whether your business is primarily in Canada where English and French are dominant, or your operations and customers are around the globe, we can help you effectively communicate in over 120 languages.

Interpreting services are available on-site to enable multilingual communication during business meetings or conventions.

Occasionally you may require the services of an interpreter to help your staff communicate with foreign guests. Our interpreting services department handles over 1,000 assignments a month, so we can easily provide you with the services you require.

Choosing a one-stop language services provider reduces costs and improves consistency.

As your translation assets grow, costs go down and consistency goes up. Today's advanced translation technologies enable the translator to identify word matches and other common terms. The translator will re-use the same words/terms which improves consistency from project to project. Plus, you are not charged for exact matches which reduces project costs.
